Software Download

The software requires the Microsoft .NET Framework 1.1 and may require additional updates if running Windows prior to Win2k. More EASE Focus Installation Instructions available at <http://focus.afmg.eu/>

Installation:

The file below is a zipped installer of the EASE Focus Software for the Peavey Versarray. Please make sure that your system meets the above requirements before installation:

Please copy the Projects (.fcs) included in the data directory to the following directory once installed: C:\Program Files\SDAEASE Focus\Projects

EASE Focus Aiming Software is a two-dimensional acoustic simulation software that aids in the configuration and modeling of line arrays. This version is specially configured to predict the behavior of the Peavey Versarray™ Line Source Array System, allowing users to quickly set up and aim a system in two dimensions.

FEATURES

- The software requires the Microsoft .NET Framework 1.1
