

PVi Portable

INNOVATION. AMPLIFIED.™

OVERVIEW

The tradition of roadworthy, reliable professional portable audio systems continues with the PVi Portable pro audio system. The PVi features 300 watts of power for crystal -clear audio reproduction from a variety of sources. This eight channel system includes four XLR or 1/4" microphone inputs and two stereo inputs featuring 1/8", RCA or 1/4" inputs. Each channel includes three bands of EQ along with a variety of digital effects with LED display. In addition the PVi portable is capable of playing back MP3 audio tracks via USB. Recording audio out can easily be done via the onboard analog record RCA outputs. A seven-band EQ completes the master section allowing the audio to be tuned for a variety of different environments. Speakers and cables are included in this self-contained, portable PA system featuring rugged metal latches and a five-year extended warranty.
