

Kosmos® M

INNOVATION. AMPLIFIED.™

OVERVIEW

The sub-harmonic generator in the Kosmos processor enhances the sound of instruments by generating a copy of the signals in their bass range but shifted an octave lower. Kosmos M places this circuitry in a phantom powered processor that can be connected in line between a dynamic microphone and the mix console. The mic input on the Kosmos M is designed for high volume application so a pad is not required.

FEATURES

- Kosmos sub-harmonic generation technology
- XLR mic input
- Phantom power or 15 VDC input (option)
- Power supply not included.
- Weight Unpacked: 0.44 lb(0.2 kg)
- Weight Packed: 0.44 lb(0.2 kg)
- Width Packed: 6"(15.24 cm)
- Height Packed: 9"(22.86 cm)
- Depth Packed: 2.5"(6.35 cm)
