

# Tour TKO® 115

INNOVATION. AMPLIFIED.™

## OVERVIEW

A 400w 1x15" bass guitar combo. The top loaded, kick back design of the cabinet is a design bridge between the Tour Series heads and cabs and the new ProBass Combos. The 1/4" input has a bright switch and an active/passive switch. There's a pre gain knob and a contour switch for a pre-shape eq. A 2 band eq is next, with a 7 band graphic, with a defeat switch. An effects loop, footswitch input, master volume, tuner output and DDT on/off switch completes the front panel. The class D power drives a ceramic 15" speaker and hf tweeter.

## FEATURES

- 400 watts maximum class D power
- 15" specially designed speaker
- High Frequency tweeter
- 7-band graphic EQ
- High and Low Shelving controls
- Pre shape contour switch
- Bright switch
