

ADI-Q Active Direct Interface with EQ

OVERVIEW

The ADI-Q combines the features of a phantom-powered active Direct-interface with a 3-band EQ in a compact package. Especially useful when the musician is not using an instrument amplifier but playing directly through the sound system of monitors. The ADI-Q can be used as an EQ unit without using the sound system connection by using an external 15VDC supply.

FEATURES

- Active high-impedance input
- Bass control (shelving)
- Mid sweep EQ control
- High EQ control
- Local amplifier output with process or unprocess switch
- Balanced mic level output
- Ground lift switch
- Phantom power or external 15VDC (option)
- 15VDC power supply included
- Weight Unpacked: 1.15 lb(0.52 kg)
- Weight Packed: 1.39 lb(0.63 kg)
- Width Packed: 6"(15.24 cm)
- Height Packed: 9"(22.86 cm)
- Depth Packed: 5.5"(13.97 cm)
