Delta Blues™ 210 Tweed Guitar Combo Amp

OVERVIEW

Classic style, classic tone and modern versatility. If the blues is your way of life, this is your amp. 30 classic all-tube watts are way louder than solid state and modern flexibility comes from a tremolo with speed and intensity controls, pre-and post-gain controls on the lead channel, 3-band passive EQ, a boost switch, external speaker jack, and an effects loop. Jamming or gigging, this baby can hold down your end of the sound.

FEATURES
