

# RBN™ 215 2000-Watt 2x15 inch Powered Subwoofer

## OVERVIEW

Our RBN™ subs are designed to deliver FULL power and deep sound where it matters most. Constructed of heavily braced 18mm birch plywood, the RBN sub is perfect for installations or portable applications where audio quality, reliability and efficiency are of the utmost importance. Incorporating the latest digital signal processing technology, the RBN subwoofers feature two XLR/1/4" combination inputs, a 3.5mm input, and a mic/line level selection. Each input features digital infrasonic high-pass filters, a 9-band graphic EQ and delay. Each output features a sophisticated compressor/limiter and fourth order highpass/low-pass filters for crossover output. Internal temperature monitors combined with a variable speed cooling fan, plus level and clip indication, ensure reliable performance even during the most demanding conditions. Internal presets built into the DSP allow users to quickly select the speaker's application via the LCD on the rear of the enclosure.

## FEATURES

- Two channel XLR/1/4" combination inputs
- Delay 0-150ms
- Power amp VU meter with LCD display
- Mic/line level selection
- Internal temperature monitor with variable speed cooling fan
- Auto power off
- On-board advanced digital signal processing
- Setup Wizard for easy configuration
- Heavy-duty locking casters
- Assignable crossover
- Ultra-braced cabinet assembly
- Direct-Thru output with combine function
- Power amp forced air cooling for maximum reliability
- Processed Thru output enables DSP to be used with external speaker cabinet
- Dual 15" woofers (RBN 215) Single 18" woofer (RBN 118)
- Ground lift
- Bass enhancement

- Pole mount
- Digital compression/limiting; 9-band EQ
- Heavy-duty steel perforated grille
- 2,000 Watts total peak power
- Weight Packed: 154.98 lb(70.3 kg)
- Width Packed: 28.5"(72.39 cm)
- Height Packed: 38.5"(97.79 cm)
- Depth Packed: 25.5"(64.77 cm)
