

# 115-N 1x15 Pedal Steel Cabinet

## OVERVIEW

Featuring one premium 15" Peavey 1501-4 Neodymium Black Widow driver, the all new USA-made Peavey 115-N Extension Cabinet is perfectly suited for use with the new Session™ 115 Steel Guitar Amp, where it takes full advantage of the amp's stereo capabilities. Solid finger-jointed 1x12" solid pine construction and premium components ensure extreme road worthiness and reliability. This cabinet is also a great choice for use with a number of other amplifiers where high sound pressure levels, full-range frequency response, and faithful amplifier reproduction is desirable. It is the perfect complement to Peavey steel amps of days past. This 4 Ohm cabinet is capable of handling a whopping 250W+ of Earth-shattering power.
