

Trace Elliot® TE Pro 2x12 Cabinet

- One ultra high end 12" coaxial driver paired with its 12" woofer-only compliment
- 8 Ohms; 1000W(rms) power handling capability (conservative)
- Dual plane baffle with coaxial driver mounted on the slanted portion for superior HF dispersion
- Substantially reinforced 15mm Poplar plywood construction
- Extremely durable weatherproof two stage epoxy coating with added metal corners
- Dual parallel Neutrik Speakon® ¼" combination input jacks
- Top and side recessed handles for easier maneuverability
- Logo and foot/recesses on three sides allow for solid and attractive horizontal or vertical stacking with all other TE Pro Series cabs
- Optional 3" heavy duty locking casters and screws included
- Top recess to accommodate the new TE-1200 bass amp head
- Removable protective front panel with magnetic retainers
- Newly designed crossover with improved overload protection
