

SPECIFICATIONS

XXL™ 412

Dimensions (H x W x D):
(32" x 30 1/8" x 14 3/8")

Net weight:
97 lbs.

Description:
The XXL 412 slant and straight cabinets are the ideal companions to the XXL and Supreme™ guitar amplifier heads, but are equally suited for any guitar amplifier. These full-sized enclosures are 16 Ohms, so they'll work with most amplifiers. Peavey's 144 Blue Marvel speakers make these the perfect companions to the TransTube® 100 EFX amplifier head, yielding a tone similar to that of the TransTube 212 EFX combo, but in a much bigger-sounding rig.

One interesting departure from the traditional slant-top cabinet is the use of a single-plane baffle, instead of the more common bi-plane approach. This results in less cancellations between the top and bottom pairs of speakers and allows the slant cabinet to sound much more like the straight cabinet. The added low end and less in-your-face tone produces much better half-stack tone than normal. The grille cloth is then braced off of the baffle to give the traditional look of a bi-plane baffle design.

3 + 2 YEAR LIMITED WARRANTY
NOTE: For details, refer to the warranty statement. Copies of this statement may be obtained by contacting Peavey Electronics Corporation, P.O. Box 2898, Meridian, Mississippi 39301-2898.

Power handling:
300 Watts continuous

Transducer complement:
Four 12" Blue Marvel®
model 144 speakers

Impedance, Z:
16 Ohms
