

# Legacy™ High Gloss Carbon Burst Carbon Fiber Acoustic Guitar

## OVERVIEW

Classic never goes out of style. Our Legacy has a full dreadnought-sized body to deliver the most power and bottom end of our line. Our performance tuned lightweight carbon fiber top bracing gives it a very quick and clean response and excels at all musical styles. The back is slightly curved to make it more comfortable to play than a standard dread. Trust us, you won't want to put it down.
