

CS® 2000 Power Amplifier

OVERVIEW

Building on the reputation of the world-famous Peavey CS® 800, which conquered the power amp market in the 1970s, the CS® Series is the global standard bearer for workhorse reliability. Over the years, these amps have benefited from some of Peavey's most popular audio innovations, including our exclusive DDT™ compression/anti-clipping protection. With its 2RU design and power points up to 4080 watts, this latest evolution of the CS® Series is leaner, louder and lighter than ever.

FEATURES
